The Italian government underlined it's intent to act against violations of law by Chinese nationals working in the country, increasing the number of such cases in the past year from four to 38. Police on Tuesday said the investigation was ongoing. "It is absolutely wrong," said Dara Corleone, a worker at the factory. "The idea is absurd. We've lived here for 20 years, and for two years now we've been working together without any problems. We all live in the same building, go to the same church and to the same supermarket." One of the arrested Chinese workers was the brother of a fourth man who was deported for smuggling goods into Italy, said Milan police chief Marco Marra. The arrests were made after Il Laboratorio received a tip that a package sent from China had been opened, and that it contained a bundle of hemp cloth and bundles of heroin. The package was then dispatched by local mail service Poste Italiane for delivery in Italy. The package was received at a Milan depot on January 7, and was opened on January 14 by customs agents from the United States. The drugs turned out to be 1,300 kg of heroin stuffed into bundles of brown hemp cloth. The plant from which the hemp cloth had been made was found to be from Myanmar, the other two plants to be from the United States. c9d1549cdd

What is a story? A story is defined by a situation and the elements that characterize it. Storytelling is an important part of human life. Stories enhance the communication between people. They are a means of sharing knowledge and transmitting ideas. There is no one opinion on the subject, if one consults the work of famous storytellers, there will be a wide range of opinions. It could be used as the introduction to my latest album 'Songs for the planet'.
