

VVVVV doesn't hold the title of the best game ever made (unless you ask the makers of the Frozenbyte games) but it is the best that we could ever have hoped for when it comes to puzzles games. Our stories go beyond adventure games, and we always hold the hard puzzles and puzzle solving for one of the key elements when creating our stories. We're not all about killing and killing, like the maker of Call of Duty. And we keep track of our successes and failures in game development. Why? You'd be doing us a favour if you could spread our soundtracks all over the internet. We are very, very proud of this soundtrack, and if you find it awesome and such an important part of our backgrounds, then we'd be very grateful if you could download it and spread the joy around.
