Do you need to recover files, folders or simply uninstall unsuccessful programs in Windows 10, 8, 7, Vista or XP? Do you want to restore your deleted files in order to get back the working version of your files? If yes, use the program which is called as Windows Data Recovery! This Windows Data Recovery software is one of the most comprehensive free data recovery software. With the help of the software, you can easily recover files deleted from your hard drive. The software allows you to recover different type of files, including MS Office files, documents, photos, music etc. So, if you deleted files, folders, or even accidentally formatted you hard drive, then no need to worry! This tool can easily help you to recover deleted files without any hesitation. Using the 'Recover Your Files' function, this software also allows you to recover files even when you don't have a backup or even when you have an error occurred during the backup, and this is the reason why this software is one of the best free data recovery software. Most of the time, we all get to understand how important is to back up the files and also delete the unwanted files or folders for the sake of our precious data, or for the sake of the ones who depend upon it. Unfortunately, this is not an easy thing to do. One has to pay a lot of attention to the unwanted files and have to manually back them up and delete them. Due to this reason, most of the people choose to skip it or simply forget about it. Well, if you need to carry out such task and also need to do it manually, then the best thing you can do is to try out the Windows Data Recovery software. With the use of the software you can easily recover files deleted from your hard drive, and the best part is, you will not need to spend anything for the software. All you will need to do is to turn on your computer and after that, you will be able to select the option to recover files from the 'Recover Files' and 'Recover Folders' function. If you have the freeware version of the software, then you can retrieve deleted files from your hard drive, it will be a breeze for you. In the case of the paid software, you will be able to recover even the most expensive file, and this is a thing that no other data recovery software can offer you. If you happen to use Windows
